EDUCATION

D.Y. Patil College of Engineering   Pune, MAHARASHTRA
Bachelor of Engineering   *Dec 2021 – June 2025*
Guru Nanak School for Excellence   Adipur, Gujarat
Higher Secondary Education   *June 2019 – Nov 2021*

Certification

Python for Everybody: Specialization by University of Michigan and offered through Coursera
Web Design for Everybody: *Basics of Web Development & Coding Specialization by University of Michigan and offered through Coursera.*
Web Development Master Course: DotBatch
Data Structures & Algorithms BootCamp: Supreme Batch

PROJECTS

Swaad Ghar Tak | MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a comprehensive restaurant application with features including viewing menus, order management, login/register functionality, and adding items to the cart.
- Built a robust backend for order processing and user authentication, with error handling and a responsive design using Tailwind CSS.
- Utilized Redux Toolkit for efficient state management, ensuring a seamless user experience across various devices.

News Mania | MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a real-time news aggregator application using the MERN Stack, integrating NewsAPI to fetch the latest news articles from diverse sources.
- Implemented a user-friendly client interface allowing users to filter news articles by category and view detailed news stories.
- Ensured seamless deployment and usage by providing clear setup instructions for both server and client components.

Blood Bank | MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a web application for managing blood donation activities, supporting multiple user roles (Admin, Donor, Hospital, Organization) and ensuring secure authentication using JWT and bcrypt.
- Built a dynamic and responsive frontend with React.js, leveraging Redux Toolkit for state management and Bootstrap for styling.
- Implemented a robust backend with Node.js and Express.js, utilizing MongoDB with Mongoose for data modeling and adhering to the MVC architecture for organized development.

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript,Java
Web Technologies and Frameworks: HTML, CSS, React JS, Node JS, Express JS
Libraries: Bootstrap
Databases: MySql, MongoDB

ACHIEVEMENTS

- 2 ★Codechef
- 5 ★HackerRank
- Solved 150+ Questions on **Leetcode**
